About Us

Welcome to Prime Bakers, a name that is steadily marching towards a respectable place in the bakery sector. It all started as a joint venture between us and General Mills. They have provided us with great knowledge and advanced technology, and together with our rich heritage spanning three generations, we've established Prime Bakers. Our family-owned business, in full cooperation with General Mills, has blended knowledge and technology on one hand, and perfected the art of traditional handmade baking on the other, ensuring that every product reflects our commitment to quality.

Our factory is not only highly certified but also meets optimal hygiene standards, ensuring a clean and safe working environment.

We are proud of our young and ambitious HR team, whose dedication and innovation drive our success. Partnering with us means more than just access to premium quality products, our business model is designed to provide satisfactory arbitrage for both producers and customers, ensuring mutual benefit. Our consumers can taste the difference in every bite, knowing they are enjoying products crafted with care and tradition.

Choose Prime Bakers for a bakery experience like no other, where tradition meets modern excellence.
